WORKED ANSWERS

Circles

Prepared by **Chalaka Perera** · BSc (Hons) Computer Engineering (First Class) · University of Peradeniya

Formulas: Circumference = $2\pi r$ • Area = πr^2

Question 1

(i) Circumference = $2 \times \frac{22}{7} \times 7 =$ **44 cm**

(ii) Area = $\frac{22}{7} \times 7 \times 7 =$ **154 cm²**

Question 2

(i) $2\pi r = 88 \rightarrow r = 88 \div 2 \div \frac{22}{7} =$ **14 cm**

(ii) Diameter = $2 \times 14 =$ **28 cm**

Remember: a radius can never be negative.
